Insta-Meet Plus

No Reservations, No Operators, No Confusion

Insta-Meet Plus is an automated, reservationless, conferencing service that offers a reliable and simple solution for your everyday conference calls. No longer must a conference be scheduled in advance or require operator assistance. We make it easy for you by providing one toll free dial-in number for you to use for all your conference calls. With **Insta-Meet Plus**, you can conference up to 125 participants and begin a conference anytime, any place, on the fly! Plus, you can *record the conference* with the touch of your telephone keypad!

Key Features

- Instant, on-demand conferencing — no reservations or operators needed
- Permanent toll-free dial-in number and passcodes
- Works from any touch-tone phone
- Up to 125 participants, as capacity permits
- Control and security from your telephone keypad
- Initiate conference recording — for future playback — on the fly, with the touch of your telephone keypad
- No time limits

WEB SERVICES

Web-Pro

Automated Data Conferencing Through Your Web Browser with Web-Pro!

Web-Pro is an automated data conferencing tool that allows you to make remote meetings and seminars more interactive. You are able to be more productive and efficient by maximizing the flow of information to your meeting participants. Break traditional barriers by sharing and revising documents online, conducting interactive training seminars and doing real-time polling and more. **Web-Pro** can keep your audience engaged with advanced visual tools.

Web-Pro is fully automated and allows you to have full access to schedule your conference. With **Web-Pro** you can send out invitations and begin a meeting on the fly. You manage all archived conferences past and present so that you will always have access to the presentation of your choice.

Insta-View

Take Your Conferencing to the Next Level with Insta-View!

In today's fast-paced business environment, making decisions quickly and efficiently is critical to maintaining a competitive advantage. Time wasted scheduling in-person meetings, making travel arrangements, and bringing together a globally dispersed team can mean lost revenue and increased operating costs. Every minute counts.

With **Insta-View** web conferencing, you can increase effectiveness and productivity— across your entire company— and make faster, more accurate business decisions every day. Collaborate with employees, customers, and business partners— anytime, anywhere. Insta-View integrates data, voice and video content within a standard Web browser, so you can conduct real-time meetings over the Internet— simply and quickly.
